International Journal of GEOGRAPHICAL INFORMATION SCIENCE

Editors: P. Fisher • K. C. Clarke • B. Lees

Contents of Volume 11

Taylor & Francis
Publishers since 1798

INTERNATIONAL JOURNAL OF GEOGRAPHICAL INFORMATION SCIENCE

Founding Editor: Professor J. T. Coppock

EDITOR:
Dr Peter F. Fisher,
Midlands Regional Research Laboratory,
Department of Geography,
University of Leicester,
Leicester LE1 7RH,
Great Britain
Tel: 0116 252 3839
Fax: 0116 252 3854
Email: pff1@leicester.ac.uk

North American Editor:
Professor Keith C. Clarke,
Department of Geography,
University of California,
Santa Barbara,
CA 93106-4060, USA
Tel: 805 893 8207
Fax: 805 893 3146
Email: kclarke@geog.ucsb.edu

Western Pacific Editor:
Dr Brian Lees,
Department of Geography,
School of Resource Management
and Environmental Science,
Australian National University,
ACT 0200, Australia
Tel: 0162 493795
Fax: 0162 493770
Email: brian.lees@anu.edu.au

Book Review Editor:
Dr N. Stuart,
Department of Geography,
University of Edinburgh,
Drummond Street,
Edinburgh, EH8 9XP,
Great Britain
Tel: 0131 650 2549
Fax: 0131 650 2524
Email: ns@geovax.ed.ac.uk

SUBSCRIPTION INFORMATION

IJGIS INTERNATIONAL JOURNAL OF GEOGRAPHICAL INFORMATION SCIENCE (ISSN 1365–8816) is published monthly except in February, May, August and November by Taylor & Francis Ltd, 1 Gunpowder Square, London EC4A 3DE, Great Britain.

Annual Subscription 1997 £309, US$510.

Personal Subscription 1997 £140, US$239. Personal subscription are available to home address only and must be paid for by personal cheque or credit card.

The current volume of INTERNATIONAL JOURNAL OF GEOGRAPHICAL INFORMATION SCIENCE is available as an electronic, on-line edition. Colour illustrations which are reproduced in black-and-white in this print edition may appear in colour in the on-line edition. Please contact Taylor & Francis for details on subscribing: email online@tandf.co.uk; Internet: http://www.tandf.co.uk

Second class postage paid in Jamaica, New York 11431. US Postmasters: Send address changes to *International Journal of Geographical Information Science*, Publications Expediting Inc., 200 Meacham Avenue, Elmont, New York 11003. Air freight and mailing in the USA by Publications Expediting Inc., 200 Meacham Avenue, Elmont, New York 11003.

Typeset, printed and bound by The Charlesworth Group, Huddersfield, Great Britain. The paper used in this publication is 'acid free' and conforms to the American National Standards Institute requirements in this respect.

Dollar rates apply to subscribers in all countries except the UK and the Republic of Ireland where the pound sterling price applies. All subscriptions are payable in advance and all rates include postage. Journals are sent by air to the USA, Canada, Mexico, India, Japan and Australasia. Subscriptions are entered on an annual basis, i.e. January to December. Payment may be made by sterling cheque, dollar cheque, international money order, National Giro, or credit card (Amex, Visa, Mastercard/Access).

Orders originating in the following territories should be sent direct to the local distributor: *India* Universal Subscription Agency Pvt. Ltd, 101–102 Community Centre, Malviya Nagar Extn, Post Bag No. 8, Saket, New Delhi 110017; *Japan* Kinokuniya Company Ltd, Journal Department, PO Box 55, Chitose, Tokyo 156; *USA, Canada and Mexico* Taylor & Francis Inc., 1900 Frost Road, Suite 101, Bristol, Pennsylvania 19007; *UK and all other territories* Taylor & Francis Ltd, Rankine Road, Basingstoke, Hampshire RG24 8PR.

International Journal of Geographical Information Science

Taylor & Francis, London, Washington, DC

Contents of Volume 11

Number 1

Research Articles

Oversize shelves: a storage management technique for large spatial data objects.
O. Günther and V. Gaede 5

Assessing, representing and transmitting positional uncertainty in maps.
H. T. Kiiveri 33

GIS support for distributed group-work in regional planning.
R. M. Jones, C. V. Copas and E. A. Edmonds 53

Map dynamics: integrating cellular automata and GIS through Geo-Algebra.
M. Takeyama and H. Couclelis 73

Variation in count data transferred from a set of irregular zones to a set of regular zones through the point-in-polygon method.
A. Okabe and Y. Sadahiro 93

Reviewers Acknowledgements 107

Number 2

Research Articles

Spatial relations, minimum bounding rectangles, and spatial data structures.
D. Papadias and Y. Theodoridis 111

Discrete visibility problems and graph algorithms.
E. Puppo and P. Marzano 139

The SB^+-tree: an efficient index structure for joining spatial relations.
A. Ibrahim, F. Fotouhi and S. F. Hasan 163

Addressing geographical data errors in a classification tree for soil unit prediction.
P. Lagacherie and S. Holmes 183

Technical Communication

Resolution and accuracy of terrain representation by grid DEMs at a micro-scale.
J. Gao 199

Announcement 213

Number 3

Research Articles

Formalization of families of categorical coverages.
A. U. Frank, G. S. Volta and M. McGranaghan 215

Algebraic models for the aggregation of area features based upon morphological operators.
B. Su, Z. Li, G. Lodwick and J.-C. Müller 233

Adaptive Recursive Tessellations (ART) for Geographical Information Systems.
P. H. Y. Tsui and A. J. Brimicombe 247

Adapting regression equations to minimize the mean squared error of predictions made using covariate data from a GIS.
D. A. Elston, G. Jayasinghe, S. T. Buckland, D. C. MacMillan and R. J. Aspinall 265

An integrated GIS and knowledge-based system as an aid for the geological analysis of sedimentary basins.
G. Ferrier and G. Wadge 281

Technical Communication

A simple positional accuracy measure for linear features.
M. F. Goodchild and G. J. Hunter 299

Number 4

Research Articles

GIS-application development with GeoOOA.
G. Kösters, B-U. Pagel and H-W. Six 307

A framework for the integration of geographical information systems and modelbase management.
D. A. Bennett 337

Simple traversal of a subdivision without extra storage.
M. De Berg, M. Van Kreveld, R. Van Oostrum and M. Overmars 359

A parameterized region-growing programme for site allocation on raster suitability maps.
C. J. Brookes 375

Comments

Clarification on the use of linear programming and GIS for land-use modelling.
J. L. Arthur and D. J. Nalle 397

Author's reply to Arthur and Nalle.
E. Chuvieco 403

Book Reviews 405

Number 5

Research Articles

Modelling uncertainty in natural resource analysis using fuzzy sets and Monte Carlo simulation: slope stability prediction.
T. J. Davis and C. P. Keller 409

The development of a GIS-based property information system for real estate valuation.
P. J. Wyatt 435

Comparison of techniques for generating digital terrain models from contour lines.
A. Carrara, G. Bitelli and R. Carla' 451

Modelling topographic variation in solar radiation in a GIS environment.
L. Kumar, A. K. Skidmore and E. Knowles 475

Modelling river channel topography using GIS.
J. A. Milne and D. A. Sear 499

Book Reviews 521

Number 6

Guest Editorial

Data from the deep: implications for the GIS community.
D. J. Wright and M. F. Goodchild 523

Research Articles

Point representation of spatial objects and query window extension: a new technique for spatial access methods.
E. Stefanakis, Y. Theodoridis, T. Sellis and Y.-C. Lee 529

A region-based, graph-theoretic data model for the inference of second-order thematic information from remotely-sensed images.
S. Barr and M. Barnsley 555

Spatial group choice: a SDSS tool for collaborative spatial decision-making.
P. Jankowski, T. L. Nyerges, A. Smith, T. J. Moore and E. Horvath 577

Comment

Comment on 'Modelling topographic potential for erosion and deposition using GIS'.
P. J. J. Desmet and G. Govers 603

Reply to Comment by Desmet and Govers.
H. Mitášová, J. Hofierka, M. Zlocha and L. Iverson 611

Number 7

Research Articles

Using integrated economic and ecological information to improve government policy.
P. A. Walker and M. D. Young 619

Restoring continuity: exploration of techniques for reconstructing the spatial distribution underlying polygonized data.
J. M. Robinson and E. Zubrow 633

An Extended Vector Product Format (EVPF) suitable for the representation of three-dimensional elevation in terrain databases.
M. Abdelguerfi, E. Cooper, C. Wynne and K. Shaw 649

Locating some types of random errors in Digital Terrain Models.
C. López 677

Mapping urban air pollution using GIS: a regression-based approach.
D. J. Briggs, S. Collins, P. Elliott, P. Fischer, S. Kingham, E. Lebret, K. Pryl, H. Van Reeuwijk, K. Smallbone and A. Van Der Veen 699

Book Reviews 719

Number 8

Research Articles

Use of knowledge acquisition to build wildfire representation in Geographical Information Systems.
M. Yuan 723

A polygon reduction algorithm for enhancing graphics performance with application to fast rendering of geophysical and ionospheric model data.
B. G. Talbot and R. E. Peterson 747

Modelling community evacuation vulnerability using GIS.
T. J. Cova and R. L. Church 763

A prototype graphic landscape analysis system: Part 1. Predicting spatial patterns of grazing pressure using GIS.
J. C. Namken and J. W. Stuth 785

A prototype graphic landscape analysis system: Part 2. A bioeconomic analysis model for grazingland development.
J. C. Namken and J. W. Stuth 799

Book Reviews 813
